

As the leading player in the Saint-Emilion region, we produce a wide range of wines, all unique, cultivated and vinified with care and mastery. The strenght of our wines lies in the commitment of the families of our 145 winegrower-members. Certified the Agri Confiance label, they are the fruit of pioneering cultivation and environmental practices and a unique local heritage. They reveal their style thanks to the talent of our teams and our avant-garde winery. Welcome to Saint-Émilion!

ARTEVINO, the trading subsidiary of the Union de Producteurs de Saint-Emilion, was set up in 2006 to offer a tailor-made range of wines from the Bordeaux region and beyond. Thanks to the close relationships we have built up with the Châteaux, we are able to offer quality wines at competitive prices, with possible access to prestigious Grands Crus Classés. We put all the technical, commercial and logistical skills of the Union des Producteurs de Saint-Emilion at the service of a tailor-made offer of wines selected with care and expertise.
